*A young boy builds castles in the sand . . .  
He shapes and forms until he has structured his castle  
Years of schooling have shaped and formed our structures . . .  
of friends . . . of relationships . . . of knowledge  
Permanent, solid, enduring . . . or so they appear  
And so does the sand castle appear to the young boy.*

*The relationships in our town . . .*

JOSEPH H. GIBBONS  
SUPERINTENDENT

To the Class of 1974:

On this happy occasion of your graduation from Stoughton High School, may I extend my personal and professional congratulations to all the members of the Class of 1974.

Many of you have witnessed and have been part of the many changes in education at Stoughton High School over the past four years. These changes in programming and activities were designed to afford you the opportunity as an individual to fulfill your potential and the chance to make some serious individual choices concerning your career as a student. It is my fondest hope that you have utilized all of your academic potential, and the choices you have selected regarding your personal life style have been both enriching and rewarding.

The opportunities provided you were the result of much planning and sacrifice by people who genuinely care about you. First, your parents should receive your heartfelt thanks for the many sacrifices they have undertaken to make this day possible. Secondly, your thanks should be extended to the members of the School Committee working in conjunction with the administrators, teaching staff, and all the members of the community who have given so unselfishly to provide you with the finest educational advantages.

As a graduate of Stoughton High School your role now becomes most significant. The education you have received will be the foundation for the decisions, the conduct, and the high principles which should guide your life in the future. As an individual your life will be the yardstick by which we all measure the success of the programs inaugurated during your high school career.

May I wish each and every member of the Class of 1974 a long, healthy, and happy life filled with the blessings you so richly deserve. Your contribution to our school and to our community is greatly appreciated.

Sincerely,

*Joseph H. Gibbons*  
Joseph H. Gibbons  
Supt. of Schools

Dear Graduating Seniors:

Congratulations on successfully completing the most significant phase of your formal education. During these past twelve years you have progressed from being a child to a young man or woman. That is quite an accomplishment and the members of the Stoughton School Committee are delighted to have played a part in your growth and development.

One might ask, "What was the function of this educational process?" There are as many answers as there are respondents; however, I believe that elementary and secondary school education has the main goal of helping you learn something about yourself. This learning is both positive and negative: neither hopelessly your strengths and, equally important, your limitations. As a student you would like to pursue an occupation. If you are still undecided, I genuinely hope that your education has exposed you to some discipline that you competence; for it would be a shame to waste a great deal of your life pursuing something that was beyond your ability. Do not harbor illusions of your own grandeur but, at the same time, do not underestimate your potential.

In closing, a word to those who did not like school. Do not identify school and education. Education is learning and schools are only one form of learning. So if you were "turned off" by classrooms, find alternative forms of learning; for without education you will never know yourself, your comrades or the world in which you live.

Again, congratulations on your graduation and good luck to you in your every endeavor.

*Joseph F. Harrington, Jr.*  
Joseph F. Harrington, Jr., Ph.D.

HIGH SCHOOL  
PETER J. SPERANDIO, Ed.D.  
PRINCIPAL

TO THE CLASS OF 1974:

Congratulations! For years you have worked toward this day and now it has arrived. It will bring joy to many of you and sadness also. Joy that you have accomplished so much and sadness in that you must part with many of your friends.

Many of you had no set goals and so we attempted to satisfy your desires by providing many courses of instruction with the hope of developing interests. In some courses, we hoped to provide the basic tools of life. In others, we tried to satisfy your special interests and to develop a sense of values. In our daily contacts, we tried to create a feeling of respect for our neighbors and authority. We hope that we succeeded.

Personally, I was fond of this class. It contained so many young people who were wonderful. Many excelled in the classroom. Others demonstrated great ability in sports. Still others were great as individuals. Working and talking with you was truly a very satisfying experience for me. I hope that you profited too.

Whatever road you take, if we can be of any further service to you, please call on us. I do hope that your Commencement is the beginning of a new and fuller life. My best wishes for happy and prosperous lives for all of you and your families.

Sincerely yours,

*Peter J. Sperandio*

#### MR. GARY ERICKSON

Senior Class Advisor

Working with the class of '74 has given me the opportunity to see students in activities other than academic. I am impressed by the manner in which the students conducted their fund raising and social activities. The situations encountered, were in many cases, alien to their past experiences. By working together, they surmounted the difficulties and learned something about life and people. The experiences I enjoyed with the Class of '74 will be part of my most gratifying reminiscence.

## Class of 1974

The Class of '74 would like to thank Mr. Gary Erickson for the time and devotion he has given us for the past three years. He has listened to our many disagreements at executive board meetings and assisted us at our class functions. We are very grateful for his help.

When Jim Gormley first came to Stoughton High School, he had two main goals to accomplish. First, he wanted to make SHS a respectable hockey school. Second, he wanted to build tradition which would be backed by pride. Since he came to SHS, both of these goals have been achieved in great measure. Not only for his sincere success on the ice, but for his sincere humanity off the ice, the students of Stoughton High are grateful.
